# Course Description

In the history of the world, many religious leaders making stupendous claims have come and gone. Why then has the life and message of Jesus endured as it has? The biblical answer to this is that His claims were shown to be true by supernatural acts. This verification, the words He taught and the life He lived place Him a category distinct from all other religious leaders. This course, **The Miracles of Jesus**, considers the reasons for Jesus' miraculous life.

## Course Objectives

- To introduce students to the basic fundamentals of the Christian faith
- To provide scholarly and historical evidence for the validity of Christianity
- To encourage logical thinking in evaluating the authenticity of the teachings of Jesus and of the Bible

## Course Methods

Throughout this course, a number of methods will be used to engage the students in learning and processing information, interacting with other students, and applying the learning to their lives. These methods include the following:

### **Media/Materials**

The course will include media presentations of lectures and supplementary materials to be viewed, listened to, and/or read throughout the ten lessons of the course. Details on these materials will follow in the Course Requirements section.

### **Interaction**

Whether sitting in a traditional classroom or studying from a distance, students benefit from interaction and collaboration with other students. In order to meet this need in distance theological education, ChristianCourses.com offers structures and resources to encourage effective community interaction in this course.

**ChristianCourses.com Online Interactivity Forum** fosters peer-to-peer interaction in a global, threaded discussion. Students are required to respond to

relevant questions posted by the instructors; students are also encouraged to read and respond to the posts of fellow students.

## **Reflection**

Through journaling and the use of interactive exercises, ChristianCourses.com provides many opportunities for students to reflect on what they have learned, what they believe, and where they are challenged. The goal of these reflections is personal spiritual growth and transformation.

## **Web Journal**

Many of the assignments ask students to record their thoughts in a Course Journal. Students may use a paper notebook for this, or, as an alternative, they may use the Web Journal to record thoughts and reflections as they go through the course. ## Online Forum

Participants will interact with other students worldwide in an ongoing asynchronous threaded discussion of several course topics in each lesson.

In order to get the fullest benefit from the Forum, students should complete the forum assignment after they have listened to all the lectures. Then they should return to the forum after finishing the course to see how others respond. The following steps are instructions to the students for completing the assignment:

- Read the question(s) posted by the instructor in the *Thinking Through* section of each lesson.
- Choose the corresponding discussion topic.
- Read the question again and share your thoughts with others.
- Take the time to read other students' postings.

Objective: to develop critical thinking skills through personal interaction with the content of the course and the responses of others within a diverse community of learners.

## Personal Reflection and Evaluation

To integrate academic studies with the walk of faith, students are asked to reflect on the content of the course and evaluate their lives in light of what has been learned. The following questions will guide that individual reflection process:

### Step 1: Review

Think about the material you have studied in this course. Then ask these questions: What are one or two things you learned that you did not know before this study? What was there in the teaching that made you look at the Bible or something in the Bible in a new way?

### Step 2: Assess

Think about your life, both past and present. Given the insights or understanding that you gained in this course, what changes do you need to make in the way you think or behave?

### Step 3: Apply

What specific steps will you take in order to put these positive changes (from Step 2) into practice in your life?

### Step 4: Record

Write your responses to the above reflections in your journal (web, notebook, or computer)

## Community Reflection and Interaction

### Step 1: Choose

Since the Holy Spirit uses the input of others to guide and form His people, share what you learned from this course with another person. You might choose from these categories of people in your life:

- Someone with whom you have a close relationship

- Someone who is a mature Christian ministry leader
- Someone who is not a family member
- Someone who values the spiritual formation process
- Someone who is familiar with and values the subject of the course
- Someone who has experience using the content of the course in ministry

Step 2: Discuss

Ask that person what advice, deeper insights, or broader applications they might offer from their own life and experience.

Step 3: Respond

In light of the course content and your discussions with another person, do you believe that the assessment and application decisions you reached are appropriate? Why or why not? Add your thoughts and insights to your journal.

NOTE: The degree of effort students put into this assignment will determine its benefit. If by the end of this course students have not yet reflected critically on life in light of what has been studied, this assignment will be a helpful guide in that spiritually transforming process.
