Course Description

In this fourth course in the SoulCare series, Dr. Larry Crabb suggests ways in which soul care can become a reality an individual's life. What does it mean to join someone else where they are and walk with them on the journey to the center of their hearts? Can soul care become a supernaturally routine reality in Christian communities? These questions and more are discussed in this final course in the SoulCare series.

Course Objectives

- To explore ways in which soul care can become a routine reality in your life and in our communities
- To encourage actually joining another person on their journey home

Course Methods

Throughout this course, a number of methods will be used to engage the students in learning and processing information, interacting with other students, and applying the learning to their lives. These methods include the following:

Media/Materials

The course will include media presentations of lectures and supplementary materials to be viewed, listened to, and/or read throughout the ten lessons of the course. Details on these materials will follow in the Course Requirements section.

Interaction

Whether sitting in a traditional classroom or studying from a distance, students benefit from interaction and collaboration with other students. In order to meet this need in distance theological education, ChristianCourses.com offers structures and resources to encourage effective community interaction in this course.

ChristianCourses.com Online Interactivity Forum fosters peer-to-peer interaction in a global, threaded discussion. Students are required to respond to relevant questions posted by the instructors; students are also encouraged to read and respond to the posts of fellow students.

Reflection

Through journaling and the use of interactive exercises, ChristianCourses.com provides many opportunities for students to reflect on what they have learned, what they believe, and where they are challenged. The goal of these reflections is personal spiritual growth and transformation.

Web Journal

Many of the assignments ask students to record their thoughts in a Course Journal. Students may use a paper notebook for this, or, as an alternative, they may use the Web Journal to record thoughts and reflections as they go through the course. Web Journal entries can be viewed only by the student and by the site administrator, but are not graded.

Quizzes and Final Exam

Because of the depth of Dr. Crabb's presentations, and the importance of understanding the material presented, students should consider viewing the material multiple times. Students should consider completing all four SoulCare courses if they desire to actively participate in SoulCare relationships.

Online Forum

Participants will interact with other students worldwide in an ongoing asynchronous threaded discussion of several course topics in each lesson.

In order to get the fullest benefit from the Forum, students should complete the forum assignment after they have listened to all the lectures. Then they should return to the forum after finishing the course to see how others respond. The following steps are instructions to the students for completing the assignment:

- Read the question(s) posted by the instructor in the *Course Discussion* section of each lesson.
- Choose the corresponding discussion topic.
- Read each question again and share your thoughts about each question with other students.
- Take the time to read other students' postings.

Objective: to develop critical thinking skills through personal interaction with the content of the course and the responses of others within a diverse community of learners.

Personal Reflection and Evaluation

To integrate academic studies with the walk of faith, students are asked to reflect on the content of the course and evaluate their lives in light of what has been learned. The following questions will guide that individual reflection process:

Step 1: Review

Think about the material you have studied in this course. Then ask these questions: What are one or two things you learned that you did not know before this study? What was there in the teaching that made you look at the Bible or something in the Bible in a new way?

Step 2: Assess

Think about your life, both past and present. Given the insights or understanding that you gained in this course, what changes do you need to make in the way you think or behave?

Step 3: Apply

What specific steps will you take in order to put these positive changes (from Step 2) into practice in your life?

Step 4: Record

Write your responses to the above reflections in your journal (web, notebook, or computer)

Community Reflection and Interaction

Step 1: Choose

Since the Holy Spirit uses the input of others to guide and form His people, share what you learned from this course with another person. You might choose from these categories of people in your life:

- Someone with whom you have a close relationship
- Someone who is a mature Christian ministry leader
- Someone who is not a family member
- Someone who values the spiritual formation process
- Someone who is familiar with and values the subject of the course
- Someone who has experience using the content of the course in ministry

Step 2: Discuss

Ask that person what advice, deeper insights, or broader applications they might offer from their own life and experience.

Step 3: Respond

In light of the course content and your discussions with another person, do you believe that the assessment and application decisions you reached are appropriate? Why or why not? Add your thoughts and insights to your journal.

NOTE: The degree of effort students put into this assignment will determine its benefit. If by the end of this course students have not yet reflected critically on life in light of what has been studied, this assignment will be a helpful guide in that spiritually transforming process.

Important note: This course is not designed for formal, professional training in counseling or to qualify students as licensed therapists. Further, it is not a replacement for professional therapy a particular student may need. Students who are experiencing personal crises should seek the help of a licensed therapist.
